

Rob Dillingham - (11/12/22 vs YNG DREAMERS)

This will be Rob Dillingham second game part of Overtime Elite team Cold Hearts. He struggles playing in his first game with all the hype on him from his last overtime event he played in when he drops 36 pts. In his second game, he had an overall decent performance dropping 19pts.

On offense, he was at best when he has space to create a shot for himself and in an open transition. He went from 3-7 from three. One shot off a high pick and roll and an isolation play where he can use his great handles to score from the three. He struggles to score inside taking difficult layups at the rim. Went 2-7 from the two but he did have some moments of getting by his defender for an open floater. In transition, he showed flashy passes making his team feed off his momentum. He had 5 turnovers in the game due to getting strip driving in the lane and a difficult pass he tried to make.

On defense, he was someone the holy rams were targeting to score on by getting to the rim on him. He did show a willingness to play defense getting 5 steals by striping the ball in help-defense situations and intercepting passes in transition. Being smaller than his opponents and trying to strip the ball by penetrating players gave him 6 personal fouls.
