

## **Zaccharie Risacher vs JSF Nanterre 2/17/2024 - Film**

Zaccharie showcased a well-rounded offensive game. He shot the ball well from beyond the arc, going 2 for 5. However, I was most impressed his intentionality to not settling for perimeter shots, instead attacking closeouts and getting to the rim and midrange areas. Although he didn't handle the ball extensively, he demonstrated his ability to create off the dribble, notably with a step-back 3 from the right wing in the first half. His willingness to crash the offensive glass and engage in physical play is worth mentioning.

Defensively, Risacher was very aggressive, applying pressure on ball handlers and fighting over screens effectively. He demonstrated versatility by switching onto bigger players in the interior, despite being physically under-matched. He maintained his fundamentals by getting low and boxing out, which allowed him to compete effectively against stronger opponents.

Overall, he displayed a strong offensive skill set with effective shooting, ability to attack closeouts, and willingness to engage physically on the offensive glass. Defensively, his aggressive approach and fundamental soundness in handling mismatches were impressive. His all-around game and competitive spirit were a pleasant surprise.
