

## **Jakobe Walter vs Seton Hall 12/5/23 – Film**

Jakobe continues to display the ability to shoot the ball at a high level. He made his 3-point jumpers coming off-screen and in spot-up situations. He made 3 three-point shots on the catch from a deep hash mark. He didn't make any contested shots in the game. He took 3 field goals inside the arc. He missed two of them trying to make a mid-range shot off the dribble. He also moved the ball well and did a good job spacing the floor for his teammate. Also, he grabbed an offensive rebound literally over a player's head which he did with aggression. He played with emotions and swagger especially when he was making shots.

He did a good job sliding his feet on defense and playing tight on the defenders. He uses his long wingspan to disrupt easy passes and make it difficult for the opposing team to score. He used his long wingspan to contest to jumpers and to get a book helping on the weak side. He did a good job fighting over the screens in pick-and-roll situations always caught trailing on the pick-and-rolls.

Overall solid performance for Jakobe Walter this game. He displays the ability to space the floor and knock down the 3-point shot consistently. He was committed on the defensive end and put effort into fighting through screens and helping his teammates as well. The freshman shows how he is a scoring threat from deep and that he is not an easy target to attack on defense.
