

## **Donovan Clingan vs Seton Hall 12/20/23 Film**

Donovan Clingan demonstrated good paint presence by setting screens and rolling to the rim. Something that stood out to me was he sets a screen, rolls to the rim, gets the ball in L block, one dribble back down and scores over two defenders. Clingan also demonstrated good footwork in the post. In one play, he gets the ball in the R block, backs down his defender with three dribbles, turns to his R shoulder and hits the hook shot. Something he doesn't do well is keep the ball down on his gathers for the shot and guards can easily strip him. He had one play where he had a basket right in front of the rim and got stripped by a Seton Hall guard.

Clingan demonstrated ability as a shot blocker and post defender. Something that stood out to me was his desire not to back down in the post and get a block on. He was constantly challenging his opponent when attacking the rim.

Donovan Clingan demonstrated good footwork in the post. He also showed the ability to block shots and defend the post. His main area of improvement is ball security, as guards can easily strip him when he keeps the ball down during his gatherings.
