

## **Devin Carter vs DePaul**

**01/17/24**

**In Person**

### **Physical and Personal Attributes:**

Solid frame, he appeared to be his listed height of 6'3, maybe slightly smaller.

### **Offensive Skills:**

He was very aggressive looking to score the ball from the outset of the game. He had a balanced attack of both shooting and attacking the rim off of the dribble. One play that stood out to me was with 8:50 in the 1H, he pushed the defensive rebound up the floor, faked the screen from the top of the key, and made the pull-up three from range. He also showed good footwork in the post when matched up against smaller defenders, and was able to take advantage of them. When he became the focus of the defense, he did a good job of finding open teammates on dump passes for easy assists.

### **Defensive Skills:**

Defensively, he showed good awareness and hands to get deflections and steals. He was able to use his solid frame to put his chest into driving players and knock them off of their line. Occasionally, he had some miscommunications with his teammates, allowing some easy looks for his opponents.

### **Conclusion:**

He did a good job of being aggressive and serving as his team's primary scoring option.
