

Donovan Clingan vs San Diego St 2/28/24 Film

Donovan Clingan exhibits the ability to score in the post. Occasionally, he struggles to back down from his opponent. In one play, he gets the ball in the R block, struggles to back down his defender, turns to his L shoulder and hits the hook shot. One thing he needs to work on is finishing at the rim. On a couple occasions, he missed a hook shot at the front of the rim.

Clingan displayed rim protector ability. While guards were coming in the lane, his presence was felt in the paint. Something he needs to work on is guarding bigs who can shoot outside the paint and hedge on PNR. At the beginning of the game, he wouldn't guard Jaedon LeDee at the free throw line, allowing him to hit a jumper. In another, he doesn't hedge off the PNP, just stays in the paint and LeDee hits the three from the top of the key.

One note-worthy offensive skill of Donovan Clingan is his ability to score in the post, showcasing his scoring ability around the basket. Defensively, he displayed a strong presence as a rim protector, blocking shots. However, an area of improvement for him would be finishing at the rim, as he missed a few opportunities to convert easy shots.
